

Liteper is committed to excellent and innovation !

We always pay special attention to the details in order to meet the clients' expectations.

That’s why we have gained a good reputation amound all overseas clients.

Our goal is to be a great brand in the field of linear lighting. We believe that our products would reach to the world and bring a new life style of lighting to more countries all over the world.

LINEAR LIGHTING

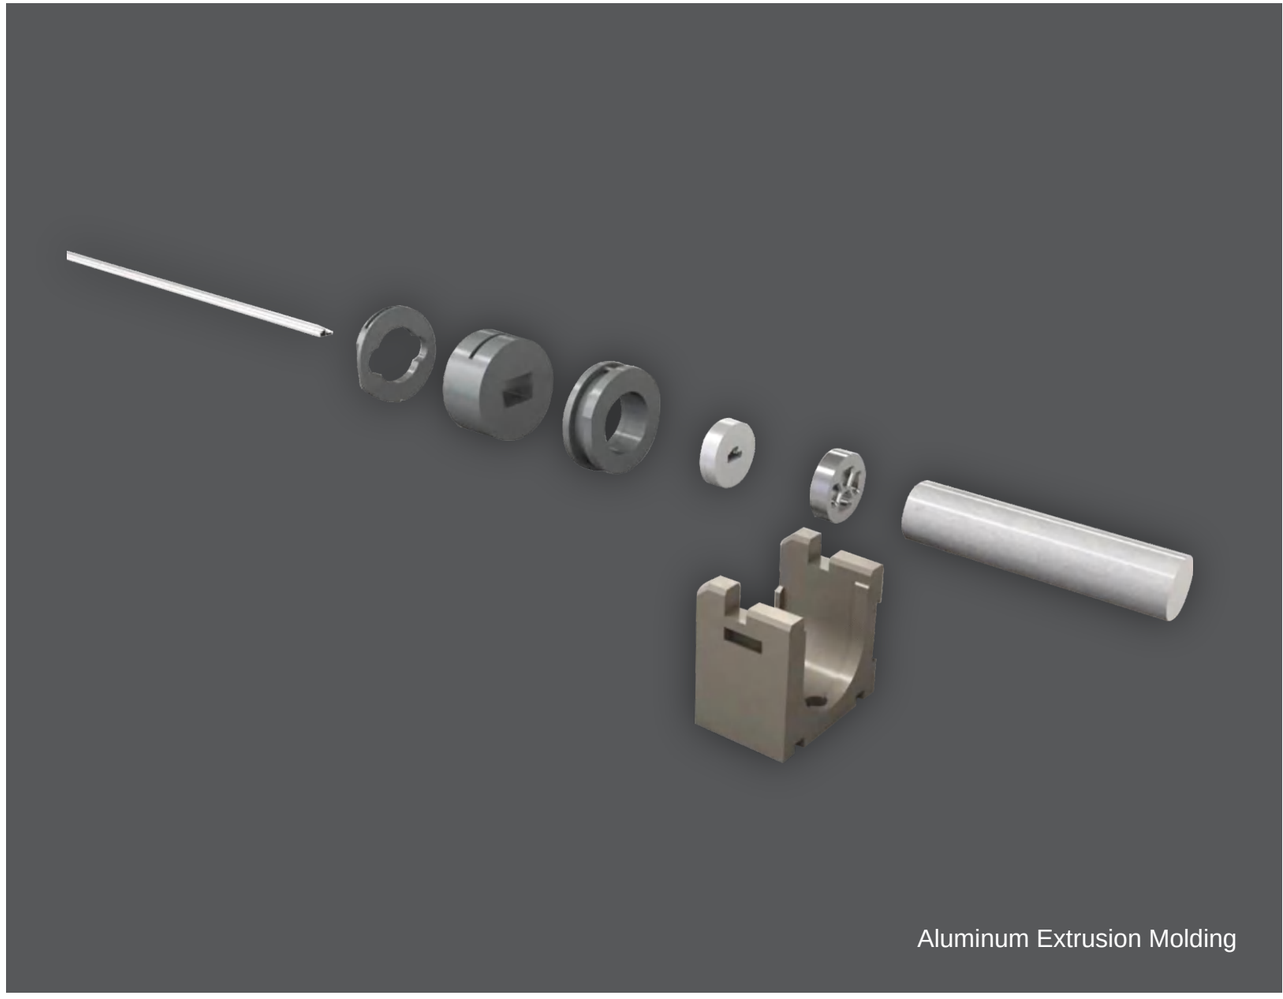

Litepers

ALUMINUM PROFILE

WWW.LITEPERS.COM INFO@LITEPERS.COM

ADVANCED ALUMINUM MATERIALS

Aluminum Extrusion Molding

We mainly use AL6063-T5 aerospace grade aluminum raw material to ensure that our profiles has better corrosion resistance, thermal conductivity, oxidation resistance, abrasion resistance, plasticity and weldability, which makes our products more durable and easy for post-processing.

Good mechanical performance

Tensile strength about 175Rm/MPa,Brinell Hardness about 65HBW

Rigorous Processing

Standard of implementation:
GB/T 14846-2014

High-quality surface treatment technology

Anodized treatment of sliver,black color and so on,Power coated

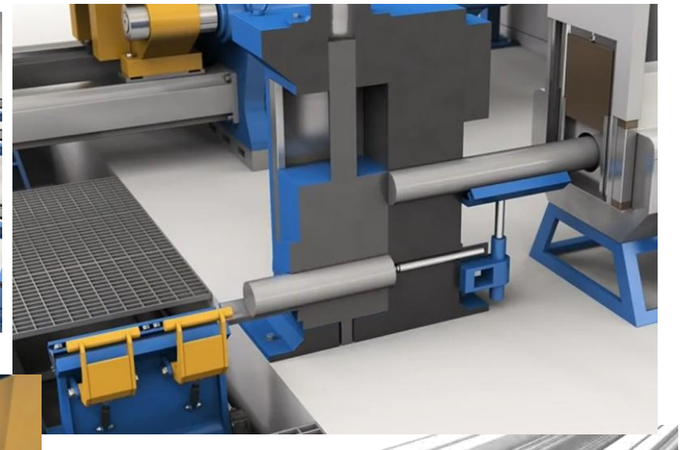

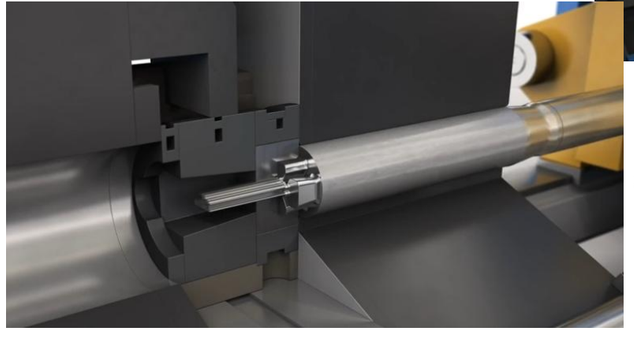

Multiple quality assurances
Stable supply of materials

Composition %	Al	Si	Fe	Cu	Mn	Mg	Cr	Zn	Ti	Others
A6063	98.27	0.4	0.2	0.05	0.05	0.7	0.03	0.05	0.1	0.15

Above sheet just for reference,the details will be based on the standard of GB/T 3190-2020

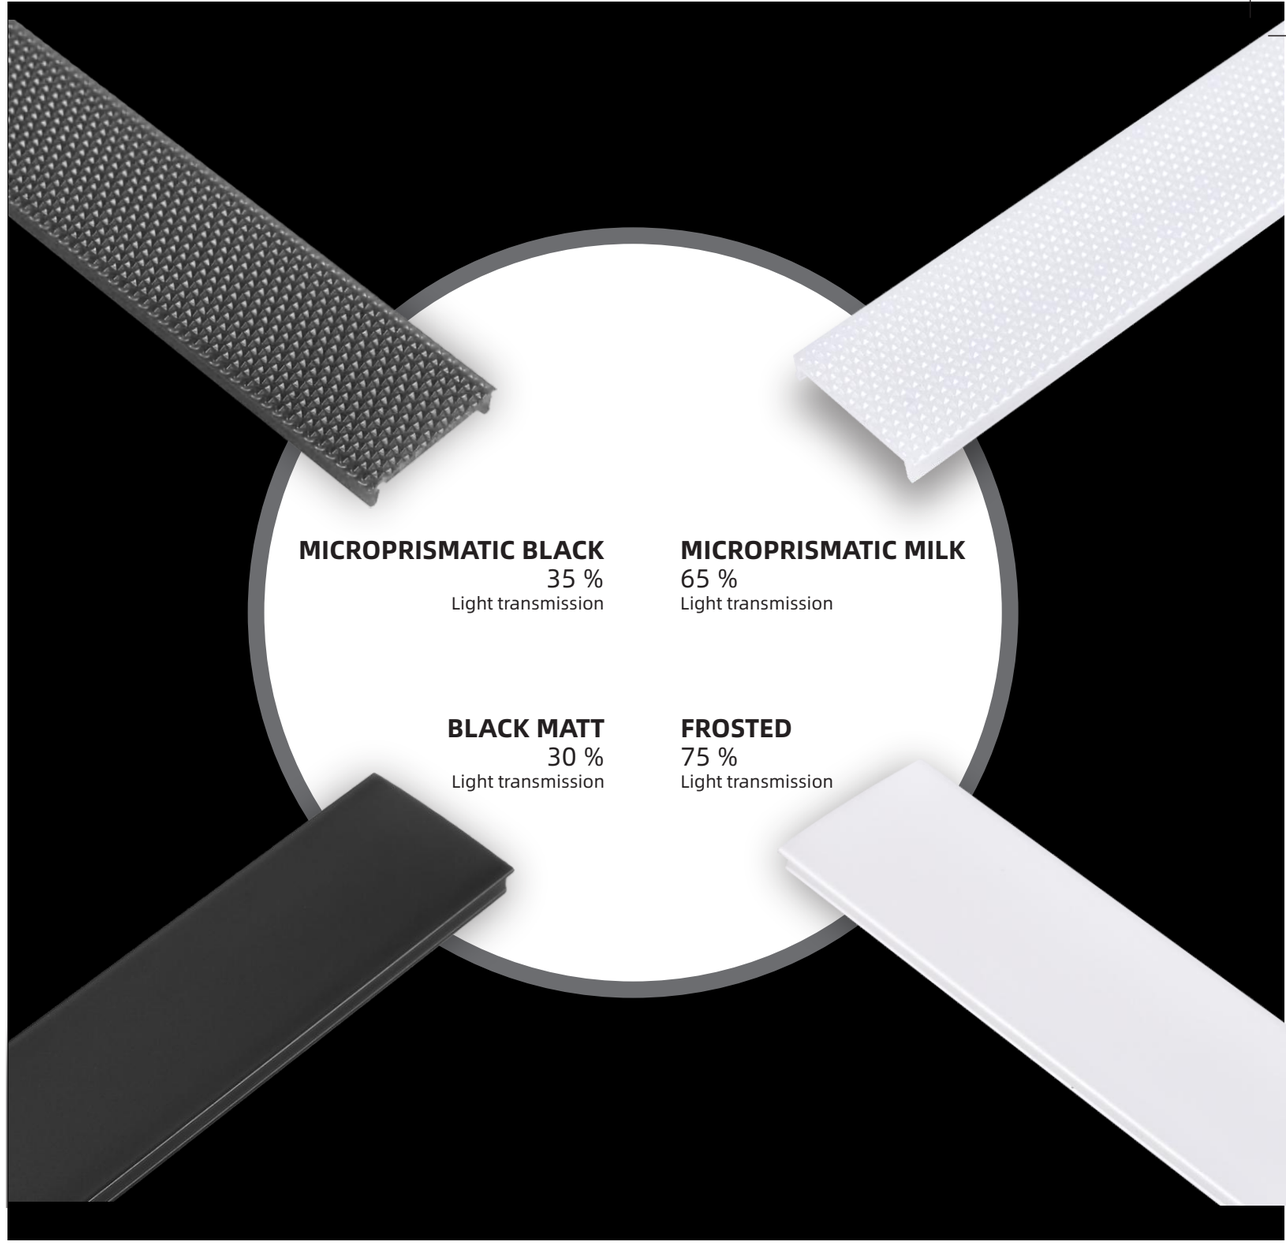

COVESTRO

To ensure our products with high-quality,our company insists on using imported raw materials with quality assurance-COVESTRO

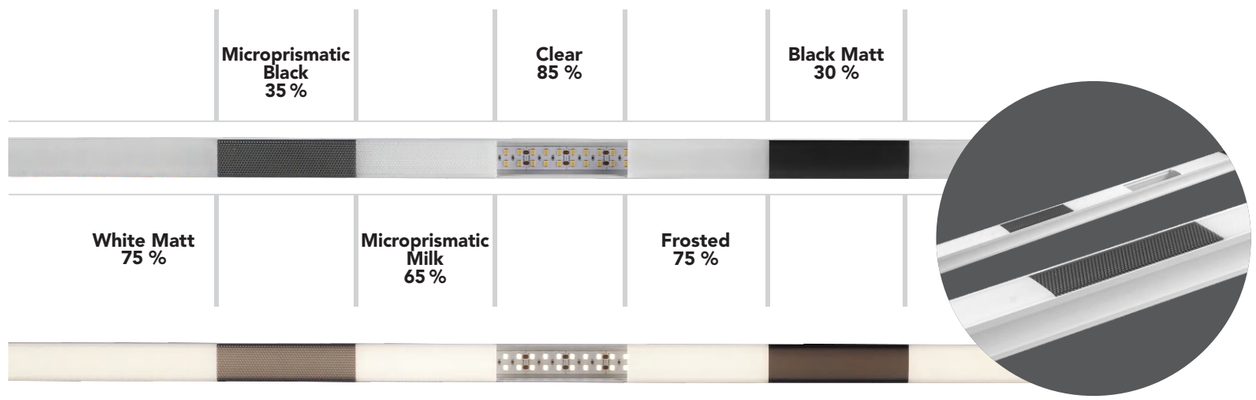

- Frosted PC material

We mainly use the frosted PC material for our products, which has high light transmittance and diffuse reflectance.It looks with high-end visual and with delicate touch of the surface.

High transmittance / High quality frosted surface / Scattered diffuse reflection / The lowest light loss /Anti-cracking / Excellent performance in bending resistance, wear resistance, heat resistance

- Frosted acrylic material

Our company also support the frosted acrylic material, which can be widely used in lighting systems. This material not only has good chemical stability and weather resistance, but also has a higher visual sense.

DIY YOUR DESIGN

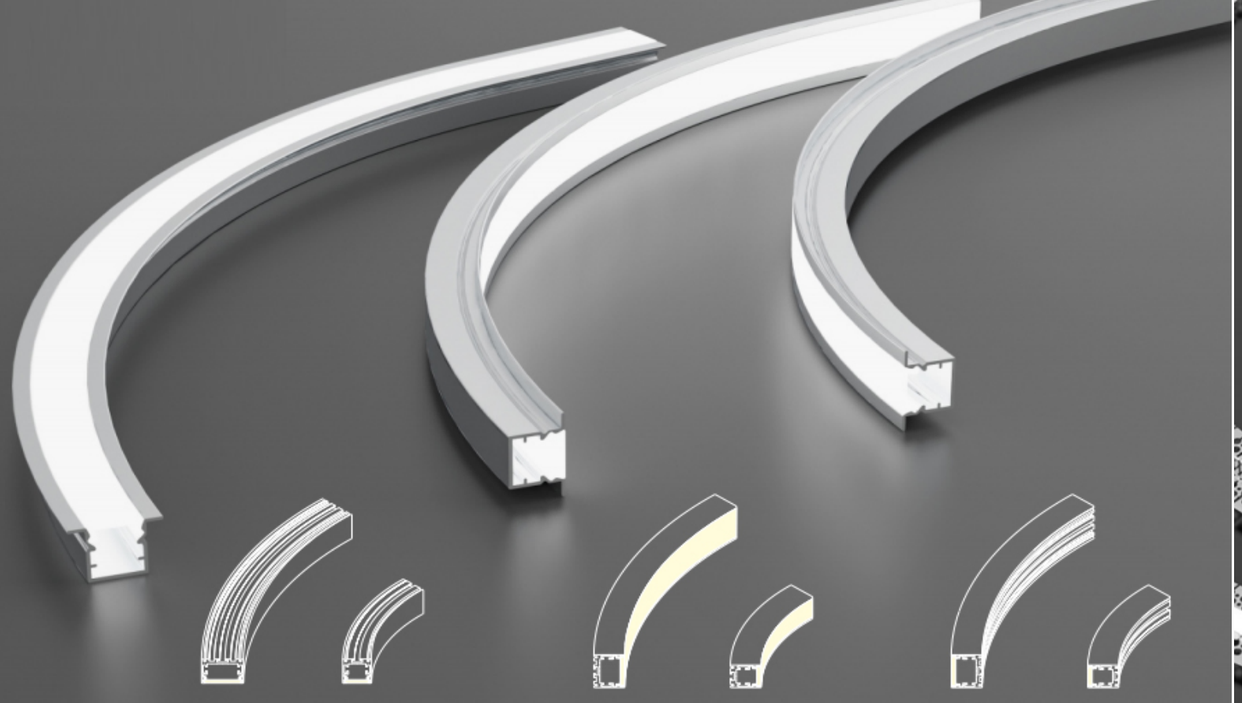

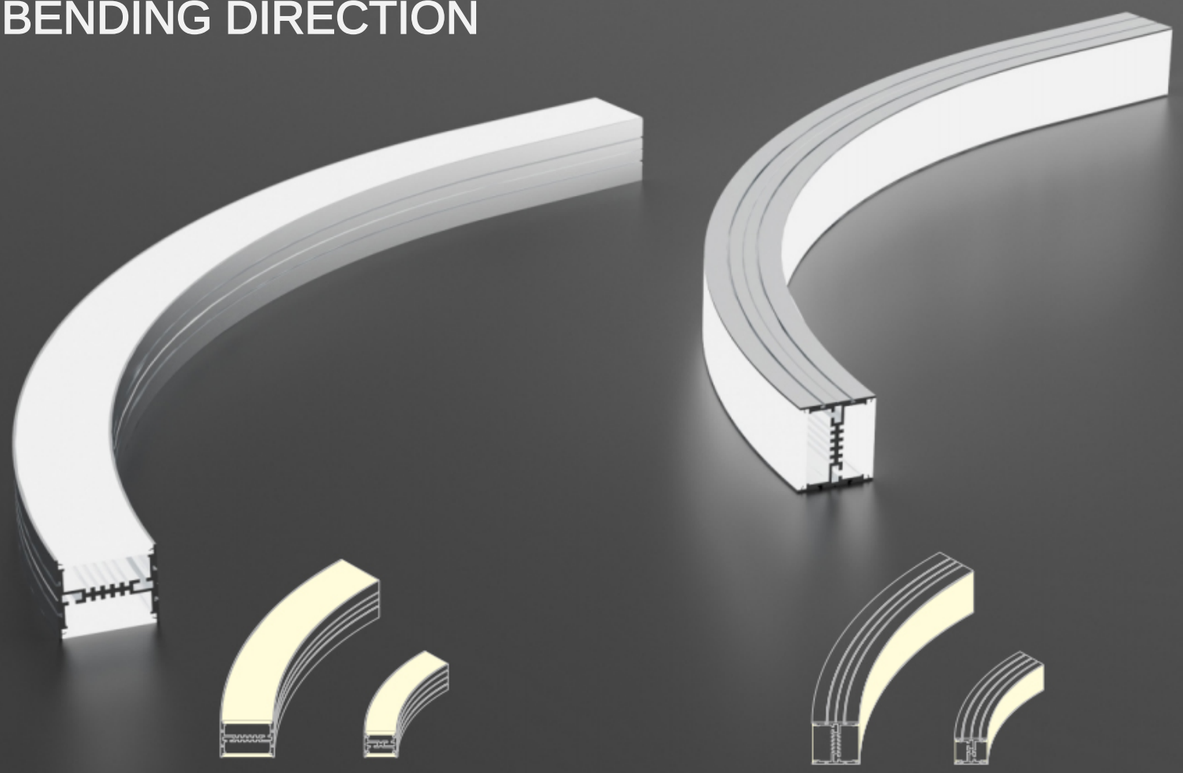

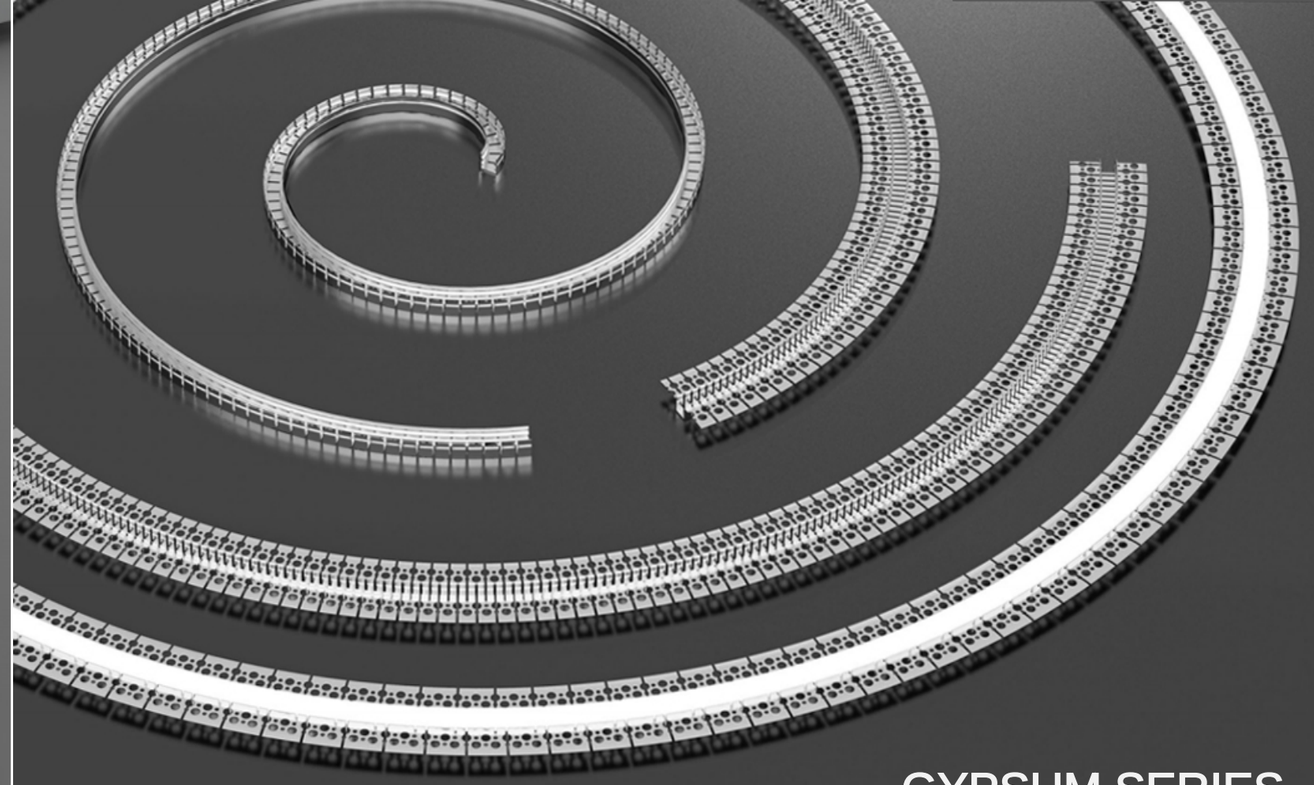

The selling point of this series is to break the shackles of traditional linear lights and make light fixtures full of imagination. Unique light fixtures are always popular in the market, they can beautify the decoration effect and outline the sense of space. Thanks to our strong production capacity and problem,solving ability, we support customized product according to customer drawings, and we can complete the production excellently to meet customer's expectations.
